Dear Mr. Feller:

Subject: Mining Sandstone Boulders - DOGM No. S/053/023

We have reviewed a copy of your Amended Notice of Intention to Commence Small Mining Operations. We received a copy of the notice from the Division of Oil, Gas and Mining on December 7, 1995.

This project is for removing and hauling sandstone boulders in Washington County. No on-site processing will be needed.

It does not appear that the operation, as described, will have any water quality impacts. At this time, no permit is required from this office for the stated activities. However, you must advise us for review of water quality impacts, if your activities generate wastewater which would be discharged to the ground or surface waters of the State.

If we can be of further assistance, please contact me or Mr. Lyle Stott of my staff.

Sincerely,

Kiran L. Bhayani, P.E., D.EE.  
Manager, Design Evaluation Section
